

ANNUAL REPORT ON DIRECTOR REMUNERATION OF LISTED COMPANIES

ISSUER IDENTIFICATION DETAILS

Year- end date: 31 December 2023

TAX ID (CIF): A-78839271

Company name:

[**ATRESMEDIA CORPORACION DE MEDIOS DE COMUNICACION, S.A.**]

Registered office:

[AVENIDA ISLA GRACIOSA, 13 (S. SEBASTIAN DE LOS REYES) MADRID]

A. REMUNERATION POLICY OF THE COMPANY FOR THE CURRENT FINANCIAL YEAR

A.1.1 Explain the current director remuneration policy applicable to the year in progress. To the extent that it is relevant, certain information may be included in relation to the remuneration policy approved by the General Shareholders' Meeting, provided that these references are clear, specific and concrete.

Such specific determinations for the current year as the board may have made in accordance with the contracts signed with the executive directors and with the remuneration policy approved by the General Shareholders' Meeting must be described, as regards directors' remuneration both in their capacity as such and for executive functions carried out.

In any case, the following aspects must be reported, as a minimum:

- a) Description of the procedures and company bodies involved in determining, approving and applying the remuneration policy and its terms and conditions.
- b) Indicate and, where applicable, explain whether comparable companies have been taken into account in order to establish the company's remuneration policy.
- c) Information on whether any external advisors took part in this process and, if so, their identity
- d) Procedures set forth in the current remuneration policy for directors in order to apply temporary exceptions to the policy, conditions under which those exceptions can be used and components that may be subject to exceptions according to the policy.

The Company's director remuneration policy is approved by the General Meeting based on a proposal by the Board of Directors, which must present a report justifying and explaining the policy to the General Meeting. As provided for in the Regulations of the Board of Directors of Atresmedia, the proposal for the director remuneration policy arises from the initiative of the Appointments and Remuneration Committee, which also has the power to supervise and monitor its subsequent implementation.

Approval was given by shareholders at the General Meeting held on 26 April 2023 for the remuneration policy applicable to the remaining months of that year and the next three years, from 2024 to 2026, with a majority of 84.08% of votes in favour.

As stated in the 2022 Annual report on director remuneration (ARDR), the new remuneration policy largely extends the previous one and introduces the developments planned and envisaged in that report as follows:

1. Regulation of the remuneration of the Company's Executive Vice Chairman, since that position was not included expressly in the previous policy since it was vacant until 2022.
2. The disappearance of the executive director position of General Manager of Television.
3. The increase in remuneration, both fixed remuneration and attendance fees, for external directors for membership of the Company's Board of Directors.
4. The increase in attendance fees to Audit and Control Committee and Appointments and Remuneration Committee meetings.
5. Matching of the indemnification system for termination of the Executive Chairman's contract with that of all other executive directors.
6. Extension of the circumstances in which executive directors receive the second 50% of their annual variable remuneration early to now include, in addition to death, as already envisaged, other similar causes that are not attributable to the director but that make it impossible for the director to remain at the Company for the other year performing their duties to which this percentage is tied.
7. The inclusion of a new long-term variable remuneration linked to performance by new businesses for executive directors and a limited number of the Group's senior managers.

The CUATRECASAS law firm was engaged to provide external advice on drafting the new policy, while information available on other comparable companies was also considered.

A.1.2 Relative importance of variable remuneration items vis-à-vis fixed remuneration (remuneration mix) and the criteria and objectives taken into consideration in their determination and to ensure an appropriate balance

between the fixed and variable components of the remuneration. In particular, indicate the actions taken by the company in relation to the remuneration system to reduce exposure to excessive risks and to align it with the long-term objectives, values and interests of the company, which will include, as the case may be, mention of the measures taken to ensure that the long-term results of the company are taken into account in the remuneration policy, the measures adopted in relation to those categories of personnel whose professional activities have a material impact on the risk profile of the company and measures in place to avoid conflicts of interest.

Furthermore, indicate whether the company has established any period for the accrual or vesting of certain variable remuneration items, in cash, shares or other financial instruments, any deferral period in the payment of amounts or delivery of accrued and vested financial instruments, or whether any clause has been agreed reducing the deferred remuneration not yet vested or obliging the director to return remuneration received, when such remuneration has been based on figures that have since been clearly shown to be inaccurate.

According to the Company's remuneration policy, executive directors receive short-term variable remuneration in addition to their fixed remuneration. Given its characteristics, it is considered ordinary remuneration: it is in cash, accrues annually, and consists of a variable percentage of fixed remuneration up to the limit established for this fixed remuneration.

Therefore, the maximum amount of this annual variable remuneration in cash shall in all cases be less than 100% of the director's fixed remuneration: in each period, it can reach up to 88% of fixed remuneration.

The accrual and amount are subject to the level of achievement of financial targets related to the Group's consolidated annual EBITDA (which is set each year by Atresmedia's Board of Directors when it draws up the budget) and of non-financial targets (linked to compliance with the good governance rules and the duties inherent in the post of director).

Full vesting occurs, barring the exceptions provided later, as follows: (i) 50% of the amount at 31 December of the year of accrual, although payment is deferred until the annual financial statements are authorised for issue by the Board of Directors and audited by the external auditor, and the director's discharge of his or her duties has been verified; and (ii) the remaining 50% subject to the director's retaining his or her position as executive director for an additional year, which must run until 31 December of the year after the reference year used to calculate the remuneration (except if non-compliance with the minimum contract term is due to circumstances attributable to the director, such as in the cases of: disability or incapacity to perform the duty or termination of contract, where this implies the entitlement of the director to be indemnified. These exceptional circumstances give rise to the early vesting of these second percentage).

The one-year term for remaining in the position is aimed at encouraging executive directors' stability in the position and promoting their engagement with the Company's medium-term financial targets, as well as allowing tighter control over potential contingencies or risks inherent in determining and settling annual variable remuneration.

The existence of this cap on the annual bonus and how it is calculated which, as indicated earlier, is directly and exclusively related to (i) the Group's consolidated and audited EBITDA (based on the audited financial statements as approved at the related General Meeting) and fulfilment of duties as director, and (ii) the executive director's fixed salary, simplifies its determination and removes risks or unforeseen deviations. It is a simple, transparent, predictable and effective remuneration system that makes it easier for investors, advisors and the broader market to understand and analyse.

The remuneration policy also includes a long-term variable remuneration plan for the Company's executive directors and certain Atresmedia Group key management personnel. Implementation of this plan potentially increases the relative weight of variable remuneration in each executive director's total remuneration mix. It is a multi-year plan with the final amount linked to the achievement of specific targets, which must be attained in three straight years, plus the requirement of the director retaining their directorship for an additional period. The three targets complement each other and are aligned with the Company's long-term objectives, values and interests, for the following reasons:

- a) The target with the highest relative weight is linked to the Company's profitability over three straight financial years, measured by reference to the achievement of consolidated EBITDA in 2021, 2022 and 2023 compared to the Company's forecasts and adjusted for any deviations in conventional and linear TV and radio advertising market.
- b) The second target is linked to diversification of Atresmedia Group's revenue streams to counterbalance negative advertising cycles and is an expression of the change in policy and adaptation of the businesses carried out in previous years. Diversifying revenue streams helps to successfully fend off growing competition among operators in both the market for the supply of audiovisual content (e.g. different types of pay TV, OTT, Spanish and international operators, internet and social media) and the advertising market (with a highly unbalanced weighting of large international digital advertising operators, who operate in a less regulated environment and hold dominant positions that cannot be replicated and are anti-competitive).
- c) The remuneration plan's third target is qualitative and refers to achievement of environmental, social and corporate governance (ESG) targets. These entail: (i) guaranteeing compliance with, at least, 85% of the recommendations in the CNMV's Good Governance Code applicable to the Company; (ii) broadcasting free ad campaigns for NGOs on Atresmedia Group's TV channels; (iii) maintaining and improving the percentage of hours of subtitling in the programming grid; and, lastly (iv) achieving a more demanding environmental score than the original score.

According to an agreement by the Board of Directors, executive directors as a whole shall be entitled to 60% of the final amount of this plan.

The minimum contract term reinforces executive directors' commitment to Atresmedia Group's medium-term performance and acts as an additional incentive to retain talent and experience. In addition to the three-year period of achievement of the financial and non-financial targets required for vesting (which ended on 31 December 2023), the remuneration does not vest until the end of the executive director's minimum contract term, i.e. 28 April 2025, with rated exceptions. An added benefit of this requirement is the improvement in the period of time available to ensure that the data used to determine the level of achievement of the targets are correct, suitable and complete, and to verify them by applying any control procedures deemed necessary (primarily the external auditor).

The Company's director remuneration policy also includes long-term variable remuneration for executive directors and senior managers linked specifically to the profitability of new businesses to the extent that they bring considerable benefits to the Company and allow for higher shareholders remuneration, especially through the distribution of higher dividends. The initial term of the scheme is the same as the term of the remuneration policy, i.e. three years, although the Board of Directors may extend it to the end of 2029. Payment of the variable remuneration depends on approval at the General Shareholders' Meeting of exceptional profits that meet two requirements:

1. That the net disposal proceeds from new businesses allows for distribution of a dividend that is more than EUR 100 million higher than the average dividends paid out in the three previous years.
2. That the disposable generates a financial return (IRR) equal to or greater than 12%.

The policy includes other requirements regarding control, along with the calculation method and requirements for vesting, distribution and settlement.

This type of long-term variable remuneration is considered to add to growth and profitability targets, encouraging diversification and innovation initiatives that are particularly important in the current environment surrounding the Group's audiovisual businesses. Moreover, it is aligned with interests of the members, since vesting and payment requirement extraordinary profits distributed to shareholders.

As per a resolution by the Board of Directors, executive directors shall be entitled to 77% of the amount of this remuneration.

Nevertheless, Atresmedia's remuneration policy states that the Board may, at its own discretion and as an exception, increase remuneration to executive directors as long as such additional remuneration does not exceed their fixed annual remuneration and is the result of one-off, exceptional transactions on behalf of the Company or, in view of the quality of outcomes, reflects the individual performance of a director or other matters requiring a qualitative assessment. This remuneration is different to the remuneration linked to new businesses (as explained previously). Therefore, application requires the involvement of different financial targets with differentiated facts and requirements. Nevertheless, a director may not receive two types of variable remuneration for the same transaction or item. No one-off or exceptional payments of this type were made in 2023.

For executive directors' annual variable remuneration, their service contracts include the possibility of the Company (i) not paying any kind of variable remuneration, or (ii) the director returning (clawback) on a pro rata basis part of the amount received (depending on when the Company has evidence warranting applying these arrangements), when the annual financial statements must be reissued due to incorrect data or failure to achieve the target established as benchmarks for vesting of the variable remuneration; and if there is a serious or culpable breach by the director of their duties as directors; or if the director voluntarily fails to meet the requirement of remaining in office for an additional year in the case of annual variable remuneration.

Both the long-term remuneration plan and the variable remuneration linked to extraordinary profits for returns from new businesses include preventative reimbursement clauses for amounts received where the data used to calculate the remuneration are inaccurate or incorrect.

Lastly, regarding conflicts of interest, directors must disclose any in which they are involved as soon as the circumstance occurs and in their annual statement, which is processed and managed by the secretary of the Board of Directors and made under the personal responsibility of each director. Moreover, the Internal Audit department and the business areas work together to identify transactions or operations that could entail conflicts of interest from the involvement of directors or their related parties.

A.1.3 Amount and nature of fixed components that are due to be accrued during the year by directors in their capacity as such.

The remuneration items and amounts for external and non-executive directors in 2023, according to the current director remuneration policy, after the General Shareholders' Meeting held in April, are as follows:

- a) Annual remuneration for each member of the Board of Directors of EUR 30,000 and fee for attending Board meetings of EUR 2,500.
- b) Annual remuneration for each member of the Executive Committee of EUR 50,000 and fee for attending Executive Committee meetings of EUR 2,500.
- c) A fee for attending Audit and Control Committee meetings of EUR 2,500, with no fixed remuneration.
- d) A fee for attending Appointments and Remuneration Committee meetings of EUR 2,500, with no fixed remuneration.
- e) The remuneration policy includes the possibility of specific additional remuneration for holding certain offices within the Board of Directors or any of its committees if the dedication and responsibility related to the position so warrant. The amount would be determined in each specific case, subject to the overall maximum limit disclosed below. In 2023, however - as in previous years - no such specific remuneration was applied and there was no additional remuneration for members of the Board of Directors or any of its committees and none is expected for 2024.

The remuneration policy also provides for the possibility of the Board modifying the amounts referred to above, provided that the total annual remuneration of external directors does not exceed EUR 3,000,000. The maximum limit or cap at Atresmedia has remained unchanged since 2006. However, this amount for external directors does not include any remuneration to which they are entitled for providing professional services to the Company unrelated to their status as directors.

According to the remuneration policy, the three executive directors do not receive such remuneration (fixed amount and fees for attending meetings), which therefore is exclusive to external directors and only for the performance of their duties as such.

A.1.4 Amount and nature of fixed components that are due to be accrued during the year for the performance of senior management functions of executive directors.

- 1. The fixed annual remuneration of the Chairman of the Board in 2023 for discharging executive duties EUR 410,000.
- 2. The fixed annual remuneration of the Chief Executive Officer in 2023 for discharging executive duties was EUR 880,000.
- 3. The fixed annual remuneration of the Chief Executive Officer in 2023 for discharging executive duties was EUR 1,000,000.

A.1.5 Amount and nature of any component of remuneration in kind that will accrue during the year, including, but not limited to, insurance premiums paid in favour of the director.

The remuneration of the Executive Chairman includes the premium for life and disability insurance paid by the Company, with a maximum annual cost of EUR 15,000.

The Executive Vice Chairman's and the Chief Executive Officer's remuneration packages include life and disability insurance premiums paid by the company (up to EUR 15,000 a year) and medical insurance, which cover family members (spouse or person with a similar relationship and descendants to the first degree) as additional beneficiaries, with a maximum annual premium of EUR 20,000.

A.1.6 Amount and nature of variable components, differentiating between those established in the short and long terms. Financial and non-financial, including social, environmental and climate change parameters selected to determine variable remuneration for the current year, explaining the extent to which these parameters are related to performance, both of the director and of the company, and to its risk profile, and the methodology, necessary period and techniques envisaged to be able to determine the effective degree of compliance, at the end of the year, with the parameters used in the design of the variable remuneration, explaining the criteria and factors applied in regard to the time required and methods of verifying that the performance or any other conditions linked to the accrual and vesting of each component of variable remuneration have effectively been met.

Indicate the range, in monetary terms, of the different variable components according to the degree of fulfilment of the objectives and parameters established, and whether any maximum monetary amounts exist in absolute terms.

I- ANNUAL VARIABLE REMUNERATION OF EXECUTIVE DIRECTORS IN CASH

Annual variable remuneration in cash (bonus) annual variable (bonus) contingent on: (i) the achievement of the financial targets related to Atresmedia Group's annual results (based on the consolidated financial statements), (ii) the performance of their duties as directors, and (iii) their remaining in office until the end of the year of the related remuneration plus one additional year (with the exceptions explained below for where failure to comply with the minimum contract term is not based on a decision by the director).

The maximum amount is 88% of their fixed remuneration in cash and is determined based of the level of achievement with the target previously established by the Board of Directors for EBITDA from the Group's consolidated financial statements.

It is calculated in accordance with the following scale:

- (i) If the Group's EBITDA as reported in the consolidated financial statements is less than 60% of the amount in the budget approved by the Board of Directors for that year, no bonus is paid.
- (ii) If the Group's EBITDA as reported in the consolidated financial statements is equal to 60% of the amount in the budget approved by the Board for that year, a bonus equal to 40% of fixed cash remuneration is paid.
- (iii) If the Group's EBITDA as reported in the consolidated financial statements is equal to between 60% and 100% of the amount in the budget approved by the Board for that year, the amount of the bonus will be calculated proportionally, considering that (a) for a level of achievement of the target of 60%, the amount of the bonus will be equal to 40% of the fixed remuneration in cash, and (b) for a level of achievement of the target of 100%, the amount of the bonus will be equal to 80% of the fixed remuneration in cash.
- (iv) If the Group's EBITDA as reported in the consolidated financial statements is equal to between 100% and 110% of the amount in the budget approved by the Board for that year, there is no entitlement to any additional amount of bonus than in the preceding paragraph; i.e. the amount of the bonus will be equal to 80% of the fixed remuneration in cash.
- (v) If the Group's EBITDA as reported in the consolidated financial statements is equal to between 100% and 130% of the amount in the budget approved by the Board for that year, the amount of the bonus will be equal to the sum of (a) 80% of the fixed remuneration in cash, and (b) an amount of up to an additional 8% of the fixed remuneration in cash, calculated proportionally and starting from a level of achievement of the target of 110%. The full 8% will correspond to a level of achievement of 130% of the target.
- (vi) If the Group's EBITDA as reported in the consolidated financial statements exceeds 130% of the amount in the budget approved by the Board for that year, a bonus equal to 88% of the fixed cash remuneration is paid.

The EBITDA figures taken into account when determining the results for calculation of the bonus will be those appearing in Atresmedia Group's (consolidated and audited) annual financial statements of each period.

Requirements for vesting:

- a. For 50%, the director's continuing in office until 31 December of the reference year for the calculation; and
- b. For the other 50%, the director's continuing in office until 31 December of the year after the reference year for the calculation. However, the latter percentage of the bonus will be considered vested in the event of: death of the director, disability or incapacity to perform the duties or early termination of the services contract in the circumstances entitling the director to indemnification.
- c. The timing of payment of the bonus will be as follows:
 1. The initial 50%, in the first quarter of the year after the reference year for calculating the bonus, within one month following the authorisation for issue by the Board of Directors of the consolidated financial statements used as the basis for calculating the bonus and verification by the Appointments and Remuneration Committee of directors' compliance with the duties inherent in their office.
 2. The remaining 50% in the first quarter of the second year after the reference year for calculating the bonus, except in the cases described above for accrual and early vesting without having met this requirement.

The Audit and Control Committee supervises the financial data used to determine the annual variable remuneration and the Appointments and Remuneration Committee verifies compliance with the duties and obligations inherent to the post of director and with corporate governance rules.

Based on the criteria explained and taking as a reference for the calculation their respective fixed remunerations, the amount of annual variable remuneration attributable to 2023 could reach as high as EUR 340 thousand for the Chairman, EUR 732 thousand for the Vice Chairman and EUR 832 thousand for the Chief Executive Officer. The 50% of this variable remuneration vested was included in section C.1 a) i) together with the 50% of 2022 that vested at 31 December 2023 and the other 50% corresponding to 2023 will vest on 31 December 2024, if the director complies with the minimum contract term.

II. MULTI-YEAR VARIABLE REMUNERATION OF EXECUTIVE DIRECTORS

Executive directors are beneficiaries of the multi-year variable remuneration plan (the Plan), the content of which is as follows:

The Plan is designed as a long-term variable compensation linked to Atresmedia Group's performance. It consists of the distribution of certain amounts among its Beneficiaries, partly in cash and partly through the delivery of company shares, the amount of which will depend upon achievement of the various financial and non-financial targets set out in the Plan. The main features of the Plan are as follows:

- (a) Beneficiaries. Beneficiaries of the Plan will be executive directors of the Company and certain senior managers of Atresmedia Group appointed by the Board of Directors of the Company (collectively "the Beneficiaries").
- (b) Duration. The Plan shall come into effect as of its approval at the Annual General Meeting held of 28 April 2021, and shall end four years later, i.e., 28 April 2025. The Plan is split into two differentiated periods:
 - i) Achievement period: which also comprises two different periods: (a) until 31 December 2023, which is the reference period for calculating the level of achievement of the financial and non-financial targets, and (b) until 28 April 2025, which is the reference date for the fulfilment by Beneficiaries with the minimum contract term at Atresmedia Group. ii) Settlement period: from 28 April 2025 to 30 June 2025; i.e. the deadline for settlement of any amounts accrued to Beneficiaries.
- (c) Targets. The Plan includes the following targets:
 - i) First target: Profitability. Achievement of a consolidated earnings before interest, tax, depreciations and amortisation ("EBITDA") for Atresmedia Group during the three financial years (2021, 2022 and 2023), as forecast by the Company, adjusted by 90% of the upwards or downwards deviations of the conventional and linear TV and Radio advertising market from the forecast variation included in the three-year plan used as a reference for determining the target. This first target has a weighting of 70% of the total.
 - ii) Second target: Diversification of income sources. Achievement of a 30% increase in EBITDA margin (gross margin) obtained from the Company's businesses and activities other than conventional and linear TV and radio advertising. This second target has a weighting of 25% of the total.
 - iii) Third target: Achievement of environmental, social and corporate governance ("ESG") goals.

The Company must achieve at least 50% of the sustainability (ESG) goals related to: (i) compliance with, at least, 85% of the recommendations in the Good Governance Code of Listed Companies applicable to the Company; (ii) maintenance of a significant reserve of free air time for NGO campaigns; (iii) maintenance and increase in the percentage of subtitling hours in the programming grid; and (iv) the score obtained by Atresmedia Group in the "Carbon Disclosure Project" report. This third target has a weighting of 5% of the total.

Despite the Plan's multi-year nature, if the profitability target set out in paragraph i) above is achieved during the first two years of the term (i.e., 2021 and 2022), Beneficiaries will be entitled to receive the part of the incentive provided they comply with the minimum contract term requirement.

Beneficiaries' entitlement is contingent on their continued employment in Atresmedia Group through the entire term of the Plan, i.e., until 28 April 2025, except in certain cases in which termination is not due to causes attributable to the Beneficiary. This aim of this requirement was to retain and encourage Beneficiaries, reinforcing their long-term engagement to Atresmedia Group and its stakeholders.

(d) Clawback clause. The Remuneration Plan includes a clawback cause whereby Beneficiaries must reimburse, proportionally, any amounts received if (i) the data used for the calculation and settlement of the Plan are subsequently shown to be inaccurate or (ii) the Beneficiaries, during the term of the Plan, have committed any serious or culpable breach of their duties of loyalty, diligence or good faith, or of any other obligations undertaken as a result of employment at the Group or the contractual obligations in their service agreements.

(e) Verification and settlement period, and payment date of the remuneration. In line with good practice in corporate governance and, especially, Recommendation 59 of the Good Governance Code of Listed Companies, the Plan establishes a sufficient amount of time to verify the accuracy of the data used to determine the scope of the financial and non-financial targets and to verify and confirm that they have been effectively met.

Beneficiaries' entitlement to receive the related amount under the Plan vests on 28 April 2025, on completion of the four-year term. Settlement and payment of the amount accrued shall be made no later than 30 June 2025.

(f) Maximum amount of the remuneration. The maximum remuneration payable to all Beneficiaries of the Plan for achievement of 100% of maximum targets is an amount equal to 10% of the average actual EBITDA obtained in 2021, 2022 and 2023.

The maximum remuneration that can be accrued under the Plan is TWENTY MILLION EUROS (€20,000,000.-).

(g) Method of payment. Of the amount of the remuneration to which Beneficiaries are entitled under the Plan, 90% will be paid in cash and 10% in Atresmedia Corporación shares out of treasury stock. If necessary, the Company would buy back additional shares to execute the Plan due to achievement of targets.

The shares will be delivered on the settlement date indicated, contingent on Beneficiaries' continued employment in the Group until 28 April 2025. The maximum number of shares that can be allocated under the Plan is the result of dividing 10% of the maximum amount to be delivered to Beneficiaries (in the event of maximum achievement of the objectives) by the share price on the date of approval of the Plan at the General Meeting.

Company shares to be delivered to each Beneficiary are those that correspond to each beneficiary based on his or her percentage participation. The net number of shares to be delivered will be the number after applying and deducting amounts paid in advanced for this portion of the remuneration. The Company may sell a sufficient number of shares allocated to each Beneficiary on the market to make the relevant prepayment of tax, before delivering the rest.

Once the shares are delivered to the executive directors, ownership may not be transferred until three years have elapsed unless the director has, at the time of the transfer or exercise of options or rights, a net economic exposure to changes in the share price for a market value equivalent to an amount of at least twice his or her fixed annual remuneration through the ownership of shares, options or other financial instruments. The foregoing shall not apply to shares that the director may need to sell in order to meet the costs related to their acquisition or, following a favourable assessment by the Appointments and Remuneration Committee, to deal with such extraordinary situations as may arise and so require.

With the data available as at the date of preparation of this report, the total amount estimated for this variable remuneration plan is 17,281 thousand euros, of which 60% corresponds to executive directors.

III. VARIABLE REMUNERATION LINKED TO THE PERFORMANCE OF NEW BUSINESSES

This remuneration is for executive directors and senior managers and is linked to the future performance of new business that generate significant profits for the Company and result in higher shareholder remuneration, in the form of higher dividend distributions. The initial term of the scheme is the same as the term of the remuneration policy (to 2026) although the Board of Directors may extend it to the end of 2029. It requires approval at the General Shareholders' Meeting of exceptional profits that meet two requirements:

1. That the net disposal proceeds from new businesses allows for distribution of a dividend that is more than EUR 100 million higher than the average dividends paid out in the three previous years.

2. That the disposable generates a financial return (IRR) for the Group equal to or greater than 12%. It is also conditional on the fulfilment of the following requirements:

a) That the Company and its consolidated group show a stable financial structure.

b) That the net disposal proceeds do not include sales of shareholdings in companies included in the consolidated Group.

c) That the disposal transactions must be approved by the Audit and Control Committee and by the Board of Directors.

The basis for calculation of this remuneration is 10% of the distributed dividend arising from net disposal proceeds, less 10% of the final value of the net investment flows.

The remuneration vests once the Audit and Control Committee and the Appointments and Remuneration Committee have verified fulfilment of the conditions and the Board of Director has given its approval. The Board of Directors decides on the distribution of the remuneration among the executive directors and the rest of the beneficiaries.

Settlement of the plan must take place within one month following approval by shareholders in General Meeting of the distribution of the proceeds arising from, or included in, the net disposal proceeds.

III. CLAWBACK OF VARIABLE REMUNERATION

Executive directors who are Beneficiaries must reimburse, proportionally, any amounts received if (i) the data used for the calculation and settlement are inaccurate or (ii) the Beneficiaries, during the term of the Plan, have committed any serious or culpable breach of their duties of loyalty, diligence or good faith, or other obligations undertaken as a result of employment at the Group or of the contractual terms of their service contract.

The minimum contract term assumed by Beneficiaries provides an additional guarantee to the Company enabling it to verify the necessary data and, where applicable, any potential errors or relevant circumstances arising that affect this remuneration and, therefore, imply total or partial loss of this remuneration.

A.1.7 Main characteristics of long-term savings systems. Among other information, indicate the contingencies covered by the scheme, whether it is a defined contribution or a defined benefit scheme, the annual contribution that has to be made to defined contribution schemes, the benefits to which directors are entitled in the case of defined benefit schemes, the vesting conditions of the economic rights of directors and their compatibility with any other type of payment or indemnification for early termination or dismissal, or deriving from the termination of the contractual relationship, in the terms provided, between the company and the director.

Indicate whether the accrual or vesting of any of the long-term savings plans is linked to the attainment of certain objectives or parameters relating to the director's short- or long-term performance.

There are no long-term saving schemes for directors.

A.1.8 Any type of payment or severance pay for early termination or dismissal of the director, or deriving from the termination of the contractual relation, in the terms provided, between the company and the director, whether voluntary resignation by the director or dismissal of the director by the company, as well as any type of agreement reached, such as exclusivity, post-contractual non-competition, permanence or loyalty, which entitle the director to any type of remuneration.

According to the current remuneration policy, the context of executive directors including the following payments and termination benefits:

(a) Non-competition period: one (1) year from the termination of the contract. For this undertaking, the executive director will receive a total gross amount equal to one year of total salary (fixed remuneration and annual variable remuneration in cash received in the last twelve (12) months). Payment will be made during the non-competition period in twelve (12) equal payments.

Assuming non-compliance by the executive director with this obligation, the payments will cease and he or she must return to the Company the amounts received in this connection plus an indemnity in an amount equal to the total compensation agreed, without prejudice to any claims for damages that this could give rise to.

Whether or not the non-competition clause is enforced and, therefore, the remuneration is paid depends exclusively on the Company and its assessment of competition or not at that time of effective interest of an industrial competitor, so the company may waive the non-competition agreement and related payment.

(b) For contract termination and change of shareholders: In the event the executive director's contract is terminated unilaterally by the Company -for any cause, including non-renewal of the post- or the executive director for breaches by the Company without the executive director having committed any serious and culpable breach of his or her duties as director or contractual obligations justifying the termination, the executive director will be entitled to severance pay equal to two years of total salary (fixed and annual variable remuneration in cash received in the last twenty-four (24) months).

The executive director has the right to terminate his or her contract voluntarily with the same severance - two years of total gross salary (fixed and annual variable remuneration in cash received in the last twenty-four (24) months) - in the event of a change in control of the company or similar (sale or transfer of a relevant part of the business, integration into another business group).

If the Company decides to terminate the executive director's contract, it must give three (3) months' notice, which may, however, be replaced, in whole or in part, by an indemnity equal to fixed cash remuneration for the period of notice not given, which would be added to any other indemnity due to the executive director.

A.1.9 Indicate the conditions that the contracts of executive directors performing senior management functions should contain. Among other things, information must be provided on the duration, limits on amounts of indemnification, minimum contract term clauses, notice periods and payment in lieu of these notice periods, and any other clauses relating to signing bonuses, as well as compensation or golden parachute clauses for early termination of the contractual relationship between the company and the executive

director. Include, among others, the pacts or agreement on non-competition, exclusivity, minimum contract terms and loyalty, and post-contractual non-competition, unless these have been explained in the previous section.

Executive directors' contracts are permanent and include a system for indemnification, as described.

A.1.10 The nature and estimated amount of any other supplementary remuneration that will be accrued by directors in the current year in consideration for services rendered other than those inherent in their position.

Proprietary director Mauricio Casals Aldama provided regular advisory services other than the services inherent in his position as director to Atresmedia Group in 2023 (and is expected to continue doing so in 2024). The fees in 2023 in this connection amounted to EUR 668 thousand and in 2022 be the updated by the applicable CPI.

No other director provided professional services to the Company in 2023 other than those inherent in their post as director and none are expected to do so in 2024.

A.1.11 Other items of remuneration such as any deriving from the company's granting the director advances, loans or guarantees or any other remuneration.

There are no other remuneration items of this kind, or that are similar or comparable to advance payments, loans or guarantees.

A.1.12 The nature and estimated amount of any other planned supplementary remuneration to be accrued by directors in the current year that is not included in the foregoing sections, whether paid by the company or by another group company.

There is no supplementary remuneration other than items explained in previous sections paid by the Company or another Group company.

A.2. Explain any significant change in the remuneration policy applicable in the current year resulting from:

- a) A new policy or an amendment to a policy already approved by the General Meeting.
- b) Significant changes in the specific determinations established by the board for the current year regarding the remuneration policy in force with respect to those applied in the previous year.
- c) Proposals that the Board of Directors has agreed to submit to the general shareholders' meeting to which this annual report will be submitted and for which it is proposed that they be applicable to the current year.

The Appointments and Remuneration Committee plans to propose to the Board of Directors approval of a new multi-year variable remuneration plan for executive directors and senior managers that would take effect in 2024 once the previous plan has ended in terms of the stated (financial and non-financial) target, leaving only the minimum contract term requirement. This Committee's planned proposal is for a plan that will essentially be the same as the current plan as far as structure and items. Only the financial metrics used for determining the targets and calculating the multi-year variable remuneration would be adapted and the requirement for an additional year of service would be omitted. ESG targets will also be included in the new plan. Although they have yet to be specified, they would largely be a continuation of those existing to date. Approval of the new plan would require amendment of the current remuneration policy. It would be included in the policy following approval at the General Shareholders' Meeting, with no other amendments to the policy expected to be made.

A.3. Identify the direct link to the document containing the company's current remuneration policy, which must be available on the company's website.

<https://www.atresmediacorporacion.com/documents/2023/02/23/CB803A76-129C-4314-80DE-2E96C5C769E8/irca-788392712022editable.pdf>

A.4. Explain, taking into account the data provided in Section B.4, how account has been taken of the voting of shareholders at the General Shareholders' Meeting to which the annual report on remuneration for the previous year was submitted on a consultative basis.

The outcome of the consultative vote on the 2023 Annual Report on Director Remuneration was that, one again, a majority of shareholders in attendance or represented at the General Meeting held on 26 April 2023, at first call, voted in favour of the report.

Specifically, 99.80% of share capital presented or represented at the General Meeting voted in favour of this annual director remuneration report, 0.15% voted against, and 0.05% abstained.

B. OVERALL SUMMARY OF HOW REMUNERATION POLICY WAS APPLIED DURING THE YEAR LAST ENDED

B.1.1 Explain the process followed to apply the remuneration policy and determine the individual remuneration contained in Section C of this report. This information will include the role played by the remuneration committee, the decisions taken by the Board of Directors and the identity and role of any external advisors whose services may have been used in the process of applying the remuneration policy in the year last ended.

In 2023, the two remuneration policies in force successively, with same structure and essentially the same, were applied as planned throughout the year. The first was in effect until the General Shareholders' Meeting held in April, at which the decision was made to replace it. The second ran from then to the end of the year. The differences between this policy and previous on were described in section A.1.1 above.

As was the case in prior periods, the engagement of external advisors to apply the policy was not deemed necessary.

Payment of executive directors' fixed remuneration arises from enforcement of their respective service contracts and does not require any special process regarding calculation or validation.

Annual variable remuneration is determined (along with the percentage of related fixed salary) after the authorisation for issue of the annual financial statements by the Board of Directors based on a favourable report from the Audit and Control Committee and an unqualified opinion of the external auditor. The audited financial statements for each year are those approved at the related General Meeting.

At its meeting held in February 2023, the Appointments and Remuneration Committee verified that there was no cause to apply the contractual clauses in executive directors' existing contracts regarding potential adjustment of their annual variable remuneration in 2022. It was also verified that the financial statements to which the two parts of accrual and settlement of this remuneration were paid in 2023 had been authorised for issue by the Board of Directors or, where appropriate, approved at the related General Meeting. The same committee also considered it had evidence of the executive directors' compliance with the duties and obligations inherent to their post and with Atresmedia Corporación's corporate governance rules. This same oversight and control procedure will be implemented in 2024 for the 2023 remuneration.

B.1.2 Explain any deviation from the procedure established for the application of the remuneration policy that has occurred during the year.

There was no deviation from the procedure established for the application of the remuneration policy in 2023.

B.1.3 Indicate whether any temporary exception has been applied to the remuneration policy and, if so, explain the exceptional circumstances that have led to the application of these exceptions, the specific components of the remuneration policy affected and the reasons why the entity believes that these exceptions have been necessary to serve the long-term interests and sustainability of the society as a whole or ensure its

viability. Similarly, quantify the impact that the application of these exceptions has had on the remuneration of each director over the year.

No temporary exceptions were applied to the remuneration policy.

B.2. Explain the different actions taken by the company in relation to the remuneration system and how they have contributed to reducing exposure to excessive risks, aligning it with the long-term objectives, values and interests of the company, including a reference to the measures adopted to ensure that the long-term results of the company have been taken into consideration in the remuneration accrued. Ensure that an appropriate balance has been attained between the fixed and variable components of the remuneration, the measures adopted in relation to those categories of personnel whose professional activities have a material effect on the company's risk profile and the measures in place to avoid any possible conflicts of interest.

The calculation of executive directors' annual variable remuneration in cash is linked to the achievement of the EBITDA target for the year and their good governance obligations as directors. Therefore, it is aligned with the interests of shareholders, preventing potential exposure to excessive risk-taking that could require additional or complementary control measures.

Part of the annual variable remuneration is subject to fulfilment of the minimum contract term requirement: 50% vests on 31 December of the reference year of the remuneration and the other 50% a year later. The possibility that this variable remuneration may be negatively affected by directors' failure to comply with the duties inherent to their office reinforces their engagement to the Company's reputation and the effectiveness of its corporate governance model.

The inclusion of targets linked to future profitability, diversification of income sources and delivery of ESG goals into the long-term variable remuneration scheme, coupled with payment of part of the remuneration out of treasury shares, implies an additional increase in the relative weight of long-term objectives in directors' overall remuneration and, therefore, actual convergence with the future interests of the Company and its shareholders. Vesting of this multi-year variable remuneration is also contingent on the executive director remaining in the position. There are, however, certain exceptions to the minimum contract term clause, as explained previously.

The new long-term variable remuneration included in the remuneration policy and linked to the performance of new businesses that lead to higher shareholder returns through the payment of dividends provides and incentive to the beneficiary executives and managers to find new opportunities for business diversification in a highly competitive market that is witnessing dramatic changes in the patterns of audiovisual product consumption and relevant changes in advertisers' strategies for their commercial communication. To execute the new long-term remuneration scheme, internal mechanisms have been put in place along with the supervisory intervention of specialised collegial bodies (especially the Audit and Control Committee) and specific restrictions that protect the Group's financial structure, debt, borrowings, etc.

Also, as a counterbalance and to ensure long-term decision-making, the Company has an internal protocol governing the involvement of the Executive Committee in matters that are particularly relevant for Atresmedia Group given their nature, amount or risk. The scope of action attributable in these specific cases includes businesses and exceptional matters for the company, in which the Executive Committee is called on to act ex-ante as an additional measure of collegial knowledge and control. This is without prejudice to the full powers of the Company's Chief Executive Officer, which are not conditioned, limited or restricted in any way. In exceptional cases and cases of urgent need, the executive committee's control and supervisory intervention may take place ex post of the CEO's actions. In 2023, the Board of Directors modified the financial amounts stipulated in this protocol as thresholds for triggering action by the Executive Committee. The aim was to increase the amounts to better align them with the current needs of the audiovisual business and the spirit of this internal protocol.

As in previous years, the Company's shareholder structure provides a natural hedge against the potential for excessive risk-taking by the management team. The existence of two main and completely stable shareholders who, since 2023, have a combined ownership interest of 60.35% of the share capital and currently total representation of six (6) proprietary directors (one of whom, the chairman, is also an executive director) out of a total of twelve (12) directors is a key element for ensuring that the long-term vision and strategy outweigh the potential risks of an excessively short-term approach to management.

Director conflicts of interest are regulated in section v) of the paragraph on directors' duty of loyalty contained in article 34 "Duties of directors and scope of their responsibilities" in the Regulations of the Board of Directors. This article requires directors to avoid any situations that may conflict with the interests of the Company, refraining from actions that imply such a conflict and notifying the Board of Directors of any situations of direct or indirect conflict of interests that they or their related parties may have.

- B.3.** Explain how the remuneration accrued and consolidated over the financial the year complies with the provisions of the current remuneration policy and, in particular, how it contributes to the company's long-term and sustainable performance.

Furthermore, report on the relationship between the remuneration obtained by the directors and the results or other performance measures of the company in the short and long term, explaining, if applicable, how variations in the company's performance have influenced changes in directors' remuneration, including any accrued remuneration payment of which has been deferred, and how such remuneration contributes to the short- and long-term results of the company.

Remuneration accrued and vested in 2023 by the executive directors was in accordance with the remuneration policy in force at any given time during the year, with both fixed and variable elements aligned to the policy in terms of amount and criteria for accrual.

The annual variable remuneration of Atresmedia's executive directors is linked to the EBITDA obtained each year. Therefore, it has a direct relationship with the Company's profitability and shareholder returns via dividends, both key factors in the Company's sustainable and long-term performance.

In addition, the long-term variable remuneration of directors is also aligned with the Company's long-term target return since it is also linked to forecast EBITDA for the following years, while also including diversification of the business mix (to obtain revenue in addition to advertising), compliance with ESG (environmental, social and good governance) goals and, lastly, minimum contract terms of directors, to help foster continuity and stability in management.

The long-term variable remuneration linked to new businesses that generate extraordinary profits for shareholders was not applied in 2023 since no disposals meeting the requirements were carried out.

Remuneration paid in 2023 to by executive directors according to the criteria and metrics set out in the remuneration policy was as:

I.- EXECUTIVE CHAIRMAN

Fixed remuneration of EUR 410,000.

Remuneration in kind (life insurance) of EUR 14,235.

Variable remuneration for 2021 (50%) vested at 31 December 2022, after complying with the requirement of remaining in office at that date, of EUR 180,400, which was paid in the first quarter of 2023.

Variable remuneration for 2022 (50%) accrued and vested at 31 December 2022, which was paid in the first quarter of 2023, after the authorisation for issue of the financial statements and of the qualitative and quantitative objectives, of EUR 167,608.

II. EXECUTIVE VICE CHAIRMAN

Fixed remuneration in cash of EUR 880,000.

Remuneration in kind (life and health insurance) of EUR 22,327.

Variable remuneration for 2021 (50%) vested at 31 December 2022, after complying with the requirement of remaining in office at that date, of EUR 484,000, which was paid in the first quarter of 2023.

Variable remuneration for 2022 (50%) accrued and vested at 31 December 2022, which was paid in the first quarter of 2023, after the authorisation for issue of the financial statements and of the qualitative and quantitative objectives, of EUR 404,712.

III. CHIEF EXECUTIVE OFFICER

Fixed remuneration in cash of EUR € 1,000,000.

Remuneration in kind (life and health insurance) of EUR 13,597.

Variable remuneration for 2021 (50%) vested at 31 December 2022, after complying with the requirement of remaining in office at that date, of EUR 286,000, which was paid in the first quarter of 2023.

Variable remuneration for 2022 (50%) accrued and vested at 31 December 2022, which was paid in the first quarter of 2023, after the authorisation for issue of the financial statements and of the qualitative and quantitative objectives, of EUR 306,600.

B.4. Report on the result of the consultative vote at the General Shareholders' Meeting on remuneration in the previous year, indicating the number of votes in favour, votes against, abstentions and blank ballots:

	Number	% of total
Votes cast	163,816,413	72.57

	Number	% of votes cast
Votes against	246,359	0.15
Votes in favour	163,493,786	99.80
Blank ballots		0.00
Abstentions	76,268	0.05

Observations

B.5. Explain how the fixed components accrued and vested during the year by the directors in their capacity as such were determined, their relative proportion with regard to each director and how they changed with respect to the previous year.

For remuneration of external directors, the same remuneration scheme as in previous years was applied, comprising fixed remuneration for membership of two of the administrative bodies (e.g. Board of Directors and Executive Committee) and fees for attending Board and Board committee meetings.

Some amounts were increased follow approved by shareholders in General Meeting in 2023 as part of the new remuneration policy. These amounts are currently:

1. Annual remuneration for each member of the Board of Directors of EUR 30,000 and fee for attending Board meetings of EUR 2,500.
2. Annual remuneration for each member of the Executive Committee of EUR 50,000 and fee for attending Executive Committee meetings of EUR 2,500.
3. For the Audit and Control Committee, there is a fee of EUR 2,500 for attending meetings, with no fixed remuneration.
4. For the Appointments and Remuneration Committee, there is a fee of EUR 2,500 for attending meetings, with no fixed remuneration.

In the months leading up to the General Shareholders' Meeting held in April 2023, the remuneration paid was as stipulated in the previous remuneration policy; i.e.:

- a. Annual remuneration for each member of the Board of Directors of EUR 25,000 and fee for attending Board meetings of EUR 2,000.
- b. Annual remuneration for each member of the Executive Committee of EUR 50,000 and fee for attending Executive Committee meetings of EUR 2,500.
- c. For the Audit and Control Committee, there is a fee of EUR 2,000 for attending meetings, with no fixed remuneration.
- d. For the Appointments and Remuneration Committee, there is a fee of EUR 2,000 for attending meetings, with no fixed remuneration.

In 2023, the Executive Committee held five (5), the Board of Directors eleven (11), the Audit and Control Committee five (5) and the Appointments and Remuneration Committee three (3) ordinary meetings.

Internal or executive directors are not entitled to this remuneration (fixed remuneration for the status of director as such and attendance fees).

B.6. Explain how the salaries accrued and vested by each of the executive directors over the past financial year for the performance of management duties were determined, and how they changed with respect to the previous year.

In 2023, the salaries of the three executive directors were determined in accordance with the existing remuneration policy and their respective service contracts based on the remuneration policy approved in April at the General Shareholders' Meeting as explained in section A.1.1.

The previous policy, effective until April, was the same as the current policy in this respect.

B.7. Explain the nature and the main characteristics of the variable components of the remuneration systems accrued and vested in the year last ended.

In particular:

- a) Identify each of the remuneration plans that determined the different types of variable remuneration accrued by each of the directors in the year last ended, including information on their scope, date of approval, date of implementation, any vesting conditions that apply, periods of accrual and validity, criteria used to evaluate performance and how this affected the establishment of the variable amount accrued, as well as the measurement criteria used and the time needed to be able to adequately measure all the conditions and criteria stipulated, explaining the criteria and factors applied in regard to the time required and the methods of verifying that the performance or any other kind of conditions linked to the accrual and vesting of each component of variable remuneration have effectively been met.
- b) In the case of share options and other financial instruments, the general characteristics of each plan must include information on the conditions both for acquiring unconditional ownership (vesting) of these options or financial instruments and for exercising them, including the exercise price and period.
- c) Each director that is a beneficiary of remunerations systems or plans that include variable remuneration, and his or her category (executive director, external proprietary director, external independent director or other external director).
- d) Information is to be provided on any periods for accrual, vesting or deferment of payment of vested amounts applied and/or the periods for retention/unavailability of shares or other financial instruments, if any.

Explain the short-term variable components of the remuneration systems:

The variable remuneration of the three executive directors is determined exclusively in accordance with the level of achievement of the EBITDA target approved by the Board of Directors in the annual budget. The level of achievement is calculated based on the audited financial statements approved at the General

Explain the long-term variable components of the remuneration systems:

In 2023, the long-term variable remuneration plan for executive directors described in section A.1.6 (II) above was applied.

The multi-year annual remuneration is described in detail in this report and includes executive directors as beneficiaries. It became effective in 2021 and, with it, obligations to meet financial and non-financial targets for three straight years; i.e. 2021 to 2023. The directors included in the plan must also continue to hold the post of director until 28 April 2025.

The three-year period in which the plan's (financial and non-financial) objectives had to be met were 2021, 2022 and 2023. Therefore, the period has ended and a provisional estimate can be made of the level of achievement of the plan and the final amount. However, the procedures and the resulting amounts subject to review by the external auditor before settlement, which must be made in 2024, as already explained, because of the requirement to remain in office for an additional year.

The final qualitative results of the plan are as follows:

Level of achievement of financial objectives (profitability and diversification of income sources): 100% Achieve of non-financial objectives (environment, social and governance): 100%

Section A.1.6) discloses information on the estimate of the total amount of this remuneration and the percentage attributed to the three executive directors.

There were no disposals in 2023 warranting application of the variable remuneration linked to the performance of new businesses. Therefore, there was no additional dividend for shareholders or variable remuneration for executive directors in this connection, as provided for in the current remuneration policy.

B.8. Indicate whether certain variable components have been reduced or clawed back when, in the former case, payment of non-vested amounts has been deferred or, in the latter case, they have vested and been paid, on the basis of data that have subsequently been clearly shown to be inaccurate. Describe the amounts reduced or clawed back through the application of the "malus" (reduction) or clawback clauses, why they were implemented and the years to which they refer.

The data for 2021 and 2022 used to determine the ordinary variable remuneration settled in 2023 were approved by shareholders at the General Meeting based on a fully favourable report by the external auditor, with no data shown subsequently to be clearly inaccurate or incorrect. Therefore, the circumstances did not arise requiring the hypothetical application of the contractual non-payment, clawback or malus clauses of the annual variable remuneration.

B.9. Explain the main characteristics of the long-term savings schemes where the amount or equivalent annual cost appears in the tables in Section C, including retirement and any other survivor benefit, whether financed in whole or in part by the company or through internal or external contributions, indicating the type of plan, whether it is a defined contribution or defined benefit plan, the contingencies covered, the conditions on which the economic rights vest in favour of the directors and their compatibility with any type of indemnification for early termination or cessation of the contractual relationship between the company and the director.

There are no plans with these characteristics.

B.10. Explain, where applicable, the indemnification or any other type of payment deriving from the early cessation, whether at the company's or the director's initiative, or from the termination of the contract in the terms provided therein, accrued and/or received by directors during the year last ended.

No payment of this type was made in 2023.

B.11. Indicate whether there have been any significant changes in the contracts of persons exercising senior management functions, such as executive directors, and, if so, explain them. In addition, explain the main conditions of the new contracts signed with executive directors during the year, unless these have already been explained in Section A.1.

In 2023, the three executive directors' were modified to to adapt them to the new director remuneration policy approved at the General Shareholders' Meeting held during the year, as described in section A.1 of this report.

B.12. Explain any supplementary remuneration accrued by directors in consideration of the provision of services other than those inherent in their position.

There is no supplementary remuneration. Executive directors receive the amounts stipulated in their service contracts, as previously explained in this report. External directors receive the remuneration envisaged in the form of attendance fees and fixed remuneration, also described herein. Lastly, one external director also receives specific and differentiated remuneration for providing professional services unrelated to his activity as director, also as disclosed in this report.

B.13. Explain any remuneration deriving from advances, loans or guarantees granted, indicating the interest rate, their key characteristics and any amounts returned, as well as the obligations assumed on their behalf by way of guarantee.

There is no remuneration of this kind.

B.14. Itemise the remuneration in kind accrued by the directors during the year, briefly explaining the nature of the various salary components.

The Company bears the cost of a life and disability insurance policy for the Executive Chairman, with a maximum cost of EUR 15,000 per year.

In the case of the Vice Chairman and Chief Executive Officer, the company bears the cost of two insurance policies: one covering health (up to a maximum amount of EUR 20,000 a year, which includes direct family members as beneficiaries) and one for life and disability (with a maximum cost of EUR 15,000 a year).

B.15. Explain the remuneration accrued by any director by virtue of payments made by the listed company to a third company in which the director provides services when these payments seek to remunerate the director's services to the company.

There is no remuneration of this type.

B.16. Explain and detail the amounts accrued in the year in relation to any other remuneration concept other than that set forth above, whatever its nature or the group entity that pays it, including all benefits in any form, such as when it is considered a related-party transaction or, especially, when it significantly affects the true image of the total remuneration accrued by the director. Explain the amount granted or pending payment, the nature of the consideration received and the reasons for those that would have been considered, if applicable, that do not constitute remuneration to the director or in consideration for the performance of their executive functions and whether or not has been considered appropriate to be included among the amounts accrued under the "Other concepts" heading in Section C.

There are no other items of remuneration.

C. ITEMISED INDIVIDUAL REMUNERATION ACCRUED BY EACH DIRECTOR

Name	Type	Period of accrual in 2023
JOSÉ CREUHERAS MARGENAT	Executive Chairman	From 1/1/2023 to 31/12/2023
JAVIER BARDAJÍ HERNANDO	Chief Executive Officer	From 1/1/2023 to 31/12/2023
SILVIO GONZÁLEZ MORENO	Executive Vice Chairman	From 1/1/2023 to 31/12/2023
PATRICIA ESTANY PUIG	Lead Independent Director	From 1/1/2023 to 31/12/2023
MAURICIO CASALS ALDAMA	Proprietary Director	From 1/1/2023 to 31/12/2023
MARCO DRAGO	Proprietary Director	From 1/1/2023 to 31/12/2023
CARLOS FERNÁNDEZ SANCHIZ	Proprietary Director	From 1/1/2023 to 31/12/2023
ROSA MARÍA LLEAL TOST	Independent Director	From 1/1/2023 to 31/12/2023
ELMAR HEGGEN	Proprietary Director	From 1/1/2023 to 31/12/2023
MÓNICA RIBÉ SALAT	Independent Director	From 1/1/2023 to 31/12/2023
BEATRIZ ROGER TORRES	Independent Director	From 1/1/2023 to 31/12/2023
NICOLAS DE TAVERNOST	Proprietary Director	From 1/1/2023 to 1/12/2023

C.1. Complete the following tables regarding the individual remuneration of each director (including remuneration received for performing executive duties) accrued during the year.

a) Remuneration from the reporting company:

i) Remuneration accruing in cash (thousands of euros)

Name	Fixed remuneration	Attendance fees	Remuneration for membership of board committees	Salary	Short-term variable remuneration	Long-term variable remuneration	Indemnification	Other items	Total in 2023	Total in 2022
JOSÉ CREUHERAS MARGENAT				410	338				748	758
JAVIER BARDAJÍ HERNANDO				1,000	722				1,722	1,347
SILVIO GONZÁLEZ MORENO				880	770				1,650	1,874
PATRICIA ESTANY PUIG	28	41	50						119	125
MAURICIO CASALS ALDAMA	28	30						668	726	691
MARCO DRAGO	28	33	50						111	118
CARLOS FERNÁNDEZ SANCHIZ	28	37							65	57
ROSA MARÍA LLEAL TOST	28	44							72	69
ELMAR HEGGEN	28	31							59	49
MÓNICA RIBÉ SALAT	28	44							72	69
BEATRIZ ROGER TORRES	28	44							72	69
NICOLAS DE TAVERNOST	28	40	50						118	123

Observations

The appointments of Silvio González as Executive Vice-Chairman and Javier Bardají as Chief Executive Officer occurred in June 2022, Therefore, these two directors received different remuneration during that year, depending on the positions they held successively. In 2023, there were no changes and other positions received the remuneration allocated to them for the full year. This should be considered when comparing their respective total remuneration in the 2022 and 2023.

ii) Table of changes in share-based remuneration schemes and gross profit from vested shares or financial instruments.

Average employee remuneration									
	69	2.99	67	4.69	64	-18.99	79	23.44	64

Observations

The appointments of Silvio González as Executive Vice-Chairman and Javier Bardaji as Chief Executive Officer occurred in June 2022, Therefore, these two directors received different remuneration during that year, depending on the positions they held successively. This explains the percentage change in their respective remuneration between 2022 and 2023.

D. OTHER INFORMATION OF INTEREST

If there are any significant issues relating to directors' remuneration that it has not been possible to include in the foregoing sections of this report, but which it is necessary to include in order to provide more comprehensive and reasoned information on the remuneration structure and practices of the company with regard to its directors, list them briefly.

There are no issues relating to directors' remuneration that have not been included in this report.

The report includes early information regarding plans for the Company's new remuneration policy that must be approved at the 2024 ordinary General Meeting. Nevertheless, the final wording of the proposed resolution by the Board to the General Shareholders' Meeting has yet to be adopted, so there could still be proposed modifications by the Board of Directors.

This annual remuneration report was approved by the Board of Directors of the company in its meeting on:

28/2/2024

Indicate whether any director voted against or abstained from approving this report.

Yes

No
